PURIS® HiLo

FEATURES

80% protein, low water hold, high solubility, stable in acidic environments (pH < 4.5), clean taste.

BENEFITS

Traditionally, plant proteins have been incompatible in acidic environments due to protein precipitation, which creates an extremely gritty mouthfeel. PURIS HiLo is changing the game by creating a solution for protein fortification in acidic beverages and foods. Stability in acidic environments means that PURIS HiLo will impart a clean taste along with a smooth, non-chalky mouthfeel in low pH applications. With 80% protein purity and low water hold, PURIS HiLo makes it easier to hit protein claims without contributing to viscosity.

APPLICATIONS

Fruit Juices, Fruit Purees, Coffee, Soups, Sauces, Dressings/ Dips, Gummies, Sports Nutrition Beverages, Functional and Carbonated Waters, Acidic Products (pH ≤ 4.5).

In a statistically significant sensory panel, a protein smoothie made with PURIS® HiLo was compared to a protein smoothie retail product made with other plant proteins. **100%** of participants found PURIS® HiLo to be less gritty than the retail product, and **74%** of participants preferred the smoothie containing PURIS® HiLo.
